EDUCATION

BE. Computer Science and Engineering

Chennai Institute of Technology 

PROFESSIONAL EXPERIENCE

Web Development Intern ToonBrains Pvt. Ltd.

Worked as a Project Intern, developing full-stack applications with **ReactJS** (frontend) and **.NET** (backend), ensuring seamless client-server integration.

Machine Learning Intern

KnockBrains Technologies

Worked on developing an AI assistant chatbot for the company leveraging **Python** and **NLP** with an **accuracy of >90%**, reducing the need for physical assistance.

SKILLS

- Programming Languages: Python , C++,Java, JavaScript , Embedded C
- Full Stack: Mern Stack , IOT with Software
- TOOLS: : Github, VSCode, Vercel, PowerBI , PostMan , ArduinoIDE
- Machine Learning: : NLP, PyTorch, Transformers
- IOT-Internet of Things: Arduino-IDE , Raspberry pi-4,5, Node-MCU,Sensors

CERTIFICATES

- Introduction to Python
- Cyber Security Essentials
- Cloud Computing -NPTEL[2024]
- Introduction to Cyber Security
- Database Management System-NPTEL[2024]

PROJECTS

AI CHATBOT - Python, Flask, NLP

05/2024 – 07/2024

- Developed an **AI assistant chatbot** using Python and NLP, streamlining communication and reducing the need for physical assistance with an **accuracy of >90%**.
- The customisable chatbot provides efficient, automated support to employees and customers, enhancing operational efficiency **24/7 can also be hosted using raspberry pi-5**.

Video call intercom based on analog/IP system with vibration sensor

09/2024 – 12/2024

- This **Intercom System** enhances communication for the **Deaf** using **video calls** and **vibration sensors** for emergencies. It enables seamless, **charge-free** internal communication in **offices, businesses, and stores**, reducing stress and manpower while ensuring accessibility. Designed for **HOD and staff offices**, it simplifies information delivery, making interactions more efficient.

AGRI-SENSE - Python,Flask,audrino ide

03/2023 – 04/2023

- Developed an **AI-assisted Placement Training Platform** featuring a **Resume ATS checker, personalized feedback using context-aware AI, and proctored mock tests**.
- The platform enhances candidate preparedness through **real-time skill assessment** and targeted improvement suggestions with an **accuracy of 70%**

ACTIVITIES

Workshop & Event Organizer, Hackerz'25 & Takshashila'25 Organized AI & ML workshops and technical events for Hackerz'25 and Takshashila'25 with Club Celestius, engaging 500+ participants with seamless execution. 

Website Team, CIT Takshashila'25 Contributed to the frontend development of the Takshashila 2025 website, the prestigious cultural event of CIT

Chennai, India

Managing Director , Club Celestius CIT (Technical Club) As an active member of our tech community, I lead a diverse team, drive innovation, and oversee events, workshops, and initiatives, fostering a collaborative environment to support our community's growth and evolution.

POC-(Inflight alert and system management) I have made a inflight security alert system using ESP-32 Arduino ide, embedded C , Internal css, js, html.

ACHIEVEMENTS

Winner of Electrothon'24 (Intra college Hackathon) , Ideathon(24-hour hackathon)VIT) , SUSTAIN-AI-THON(Made up to top 20) , SIH'24(2nd qualifier)

Solved 450+ problems in leetcode with a contest rating of 1,752
