EDUCATION

Chennai Institute of Technology

Chennai, India — B.E., Computer Science and Engineering

2023 – 2027

CGPA: 9.09

PROJECTS

ANYTHINGS-OK 🌀 — Local Multimodal GraphRAG System — Python, Ollama, Neo4j, LlamaIndex

- Built a **fully offline GraphRAG system** using Neo4j and Ollama for local entity extraction and community detection
- Developed a **multimodal pipeline** for PDF, Audio, and Images with sentence-aware chunking and vision descriptions.
- Optimized inference by quantising **Modelfiles**, ensuring low-latency on consumer-grade(**7.2 gb RAM**) hardware.

PREP2PRO 🌀 — AI-Powered Placement Training Platform — Next.js, Tailwind, Python, Supabase, Transformers

- Engineered Flask-based RAG using FAISS and BERT to retrieve **domain context**, ensuring high-fidelity model grounding.
- Built multi-agent architecture (Scorer vs. Persona) for real-time evaluations with **<1.5s end-to-end** latency.
- Managed stateful multi-turn context via Supabase, enabling adaptive follow-ups based on prior candidate responses.

TERRA TRUCE 🌀 — Predictive Real Estate Risk Engine — React 19, Express.js, Supabase, Google Maps, Gemini

- Architected a **real estate risk engine** orchestrating data flows between Supabase and GIS/AI services.
- Engineered **investment engines** delivering **30-year ROI projections** and risk scores via modeling and Recharts.
- Automated document analysis, building a secure **AI pipeline** to extract property red-flags and redact **sensitive PII**.

CHATBOT 🌀 — Intent-Based AI Chatbot — Python, PyTorch, TensorFlow, Flask, NLTK, Raspberry Pi

- Trained an **classification model** using PyTorch with bag-of-words vectorization, achieving **92%** accuracy across intents.
- Engineered NLP preprocessing pipelines (tokenization, stemming) and deployed a Flask backend with **<200ms** latency.
- Enabled cloud-free deployment in low-resource environments by hosting TensorFlow version on a Raspberry Pi.

SKILLS

Languages & Core:	C++, Python, JavaScript, OOP, Bash, Data Structures
Frontend & Backend:	ReactJS, NextJS, Express.js, REST API, Flask, FastAPI
AI, ML & Agents:	Agentic AI, LlamaIndex, LangChain, Ollama, NLP, Transformers, TensorFlow, PyTorch
Databases & Graph:	Neo4j, Supabase, MongoDB, MySQL
Tools & Platforms:	VSCode, AWS(EC2,S3), Vercel, Postman, Git

PROFESSIONAL EXPERIENCE

Web Development Intern — ToonBrains Pvt. Ltd.

Nov 2024 – Jan 2025

- Contributed as a Project Intern, developing robust and scalable full-stack applications using **MERN** stack.
- Designed and integrated **RESTful APIs** to enable efficient client-server communication and seamless data exchange.
- Collaborated with the project development team and used Git for version control and code management.

Machine Learning Intern — KnockBrains Technologies

May 2024 – Jun 2024

- Developed an AI assistant chatbot using Python achieving significant reduction in physical support requirements.
- Implemented **text preprocessing pipelines** including tokenization and stemming to power an AI assistant.
- Engineered a responsive chat interface, improving the user experience for complex semantic queries.

CERTIFICATES

- Algorithmic Toolbox & Data Structures (Coursera)
- NPTEL - Cloud Computing (Gold), DBMS(Elite)

ACHIEVEMENTS

- NXTGEN TEXUS'25** – Finalist: Ranked among the top **60** of 1500 teams in the 24-hour national hackathon at EA Mall.
- CODERED'25** – Finalist: Ranked among the top **50** of 650 teams in the 25-hour national hackathon at BMSIT&M.
- ELECTROTHON'24** – Winner: Won intra-college hackathon among 100+ teams delivering a scalable Agritech solution.

OPEN SOURCE CONTRIBUTIONS

DEV-TOOLKIT 🌀🔗

Oct 2025

Integrated a client-side OCR Scanner using Tesseract.js, enabling seamless text extraction for **Hacktoberfest 2025**.

CODING PROFILES

LeetCode: Secured **Knight** badge with a peak rating of **1905**, ranking in the top 4.18% of users globally.

CodeChef: Earned a **2-Star** rating (**Max: 1437**) with a highest rank of 1612, demonstrating strong logic building.

CodeForces: Active participant in competitive programming, using core DSA to reach a rating of **1056**.

VOLUNTEERING

- Vice President (Club Celestius):** Co-founded the technical club, spearheading tech events and fostering innovation.
- Event Organizer (Hackerz'25 & Takshashila'25):** Orchestrated AI/ML workshops for **500+** participants.
- Coding Mentor:** Guided junior students in Web Development and Python, building structured learning pathways.
